# PRESIDENT SIMON FORCED TO FLEE

## Venerable Executive Marches From Haiti's Capital to Take Refuge on Cruiser

# VICTORY FOR THE REVOLUTIONISTS

## Daughter Walks by Father's Side—President's Chamberlain Shot Dead For Extending Her a Courtesy—Five Others Killed in Promiscuous Firing—Port Au Prince in Hands of Committee of Safety.

Port Au Prince, Haiti, Aug. 2.—The cause of the revolution in Haiti has triumphed. President Simon fled from the capital today and took refuge on board the Haitian cruiser S. 17 December, which was formerly the U. S. S. Albatross. With him are his wife and children and a number of his followers.

**Bound for St. Thomas or Jamaica.**  
The December lies in the harbor tonight and it is believed that Simon is awaiting the arrival of a foreign merchantman on which he can take passage for St. Thomas (D. W. L.) or Jamaica.

**Capital Invested by Revolutionists.**  
The capital is invested on all sides by the followers of General Firmin, one of the revolutionary leaders. The city itself is in the hands of a committee of safety and there is no general disorder. Tonight numerous shots were heard but these are believed to have been fired only in celebration of the overthrow of the Simon administration. Foreign interests are believed to be secure. None of the foreign warships has landed blue-jackets.

**President's Daughter Wounded.**  
The departure of the aged president was not without disorder, however, for as he was embarking at the wharf on board the American schooner Bradford C. French, there was a riotous demonstration in which the ex-president's chamberlain, Deputy Prin, of Jereim, and five other persons were killed, and Clementine, Simon's daughter, and six other persons were wounded. Miss Simon's injuries are slight.

**Gen. Peratte Would Yield Nothing.**  
President Simon left the palace at four o'clock this afternoon after he had been informed that one of the revolutionary army, commanded by General Peratte, had denied his request for three days in which to secure the safety of the city. The information was conveyed to Simon by the French and British ministers, who went out yesterday to parley with Peratte and found him obdurate.

**Demanded That Simon Leave Capital.**  
The general informed them that owing to recent summary executions by Simon's order the president must leave the capital immediately or otherwise he would attack the city without further delay. The German and Cuban ministers who went to Croix des Bouquets, a few feet below the harbor, were met by a detachment of the rebel army, which they found the rebel commander there, General Ducasse, disposed to grant the truce, provided a committee of safety was appointed.

# GRANGERS THREATEN TO SNUB PRESIDENT

## Will Not Take Part in Reception at the State Fair at Hartford.

Hartford, Conn., Aug. 2.—The Times this afternoon says that the Connecticut State Grange has notified the Connecticut Fair association that it cannot participate in the reception which is to be tendered to President Taft when he comes to the fair in Charter Oak park early in September as a guest of the Connecticut Fair association. The Times also has interviews with F. E. Duffy of West Hartford, and John H. Hale, the latter executive officer of the state grange, both substantiating the attitude of the grange.

Hale quoted as subscribing to the accuracy of the statement that "the grange cannot consistently participate in the reception to be tendered to President Taft when he comes to Hartford."

The attitude of the grange is attributed entirely to the president's attitude on reciprocity. The fair is a wide-spread feeling is can only be determined from an interview given the Times by Mr. Duffy, whose presence in Washington at the time of the reciprocity hearings created wide-spread comment. Duffy has charge of the grange at the Connecticut fair.

"Some time ago the manager of the fair invited the grange to participate in the reception to be tendered to President Taft when he comes to Hartford. This week when it was learned that President Taft had accepted an invitation to attend the fair, the grange decided to refuse the invitation. The fair is a wide-spread feeling is can only be determined from an interview given the Times by Mr. Duffy, whose presence in Washington at the time of the reciprocity hearings created wide-spread comment. Two Girls in Surf Wore Union Suits.

Missouri Constable Takes Bold Bath— to the Calaboose.

Kansas City, Mo., August 2.—Word reached Earl Dawson, deputy constable of Harlan, across the river from Kansas City, that two girls were bathing in the Missouri river "without the proper amount of clothing on." When he arrived he found a large part of the population of Harlan on the river bank gazing waterward.

Dawson appealed to the more experienced present to say if they were bathing suits the girls had on, and if not what they were. He was told that if they were bathing suits they ought not to be. One man, who worked in a department store, said they were "just plain union suits."

Deputy Dawson then showed his star and called upon the girls to come out. They came out, and Dawson retired behind a clump of willows while they dressed. The girls gave their names as Grace Dalton, aged 12, and Nellie Dalton, aged 16, both of Kansas City. Deputy Dawson escorted them to the calaboose followed by a cavalcade of indignant Harlanites.
